SUMMARY

Final-year Computer Science (B.Tech) student and full-stack developer with experience in the MERN stack, Next.js, and backend development. Solved 720+ Data Structures and Algorithms problems on LeetCode, ranking in the top 1.2% globally, with strong command of C++. Built and deployed PrepPulse, a full-stack online examination platform featuring real-time proctoring, server-side auto-grading, analytics, LaTeX/KaTeX rendering, and automated PDF generation.

TECHNICAL SKILLS

Languages: C++, C, JavaScript (ES6+), Python

Frontend: React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO

Databases: MySQL, PostgreSQL, MongoDB, Mongoose

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools & Platforms: Git, GitHub, Postman, VS Code, Render, Vercel

EXPERIENCE

Backend Development Intern

Aug 2025 – Nov 2025

YatriMap

Haridwar, India

- Built and deployed RESTful APIs using Node.js and Express.js with structured routing, middleware, CRUD operations, validation, and centralized error handling.
- Designed and implemented a Todo List backend end-to-end using MongoDB and Mongoose, including schema modeling, validation, and persistent data management.
- Contributed to MERN-based e-commerce modules by integrating frontend and backend workflows and coordinating client-server data flow.
- Applied REST API design and database modeling principles to develop maintainable backend services within an agile development environment.

Founding Member & Web Developer

Aug 2024 – Jan 2025

DOXA

Haridwar, India

- Built and delivered client-facing websites end-to-end using the MERN stack, covering requirements gathering, development, testing, and deployment.
- Worked directly with clients to translate business requirements into technical specifications and deliver functional web applications on schedule.
- Developed responsive and reusable React components, establishing a reusable frontend foundation for subsequent client projects.

PROJECTS

PrepPulse – Online Exam & Test Booklet Platform (MERN, Socket.IO, KaTeX)

GitHub | Live Demo

- Developed a full-stack examination platform enabling teachers to create configurable exams with positive/negative marking and LaTeX-rendered questions using KaTeX for academic and technical assessments.
- Engineered a student exam engine with countdown timers, automatic submission, tab-switch/window-blur detection, and logged proctoring violations.
- Implemented server-side auto-grading with synchronous evaluation and automatic candidate progress synchronization every 15 seconds to reduce risk of data loss.
- Built a class analytics dashboard displaying submission counts, average/highest/lowest scores, and pass rates to support performance analysis.
- Automated generation of printable PDF test booklets and solution sets, streamlining exam preparation and reducing manual document creation.

EDUCATION

B.Tech in Computer Science and Engineering

2023 - 2027

Gurukul Kangri Deemed to be University

Haridwar, India (GPA: 8.1/10)

CERTIFICATIONS & ACHIEVEMENTS

- LeetCode:** Ranked in the top 1.2% globally with 720+ Data Structures & Algorithms problems solved using C++.
- GfG 160 – 160 Days of Problem Solving:** GeeksforGeeks, Jun 2025 [Certificate]
