Divya Iyer

Cybersecurity & Information Security Analyst

Roll No: 21CS055 | Department: Computer Science & Engineering | CGPA: 9.15 / 10.0

Email: divya.iyer@college.edu | Phone: +91 98888 11223 | LinkedIn: linkedin.com/in/divya-iyer-sec

PROFESSIONAL SUMMARY

Security analyst specializing in penetration testing, vulnerability assessment, network traffic inspection, secure coding practices (OWASP Top 10), and Linux system hardening.

CORE TECHNICAL SKILLS

- **Security Domains:** Network Security, Web Application Penetration Testing, Threat Hunting, Cryptography
- **Tools & Software:** Wireshark, Nmap, Burp Suite, Metasploit, Snort, John the Ripper, Ghidra
- **Operating Systems:** Kali Linux, Ubuntu Server, Red Hat Enterprise Linux, Windows Security
- **Languages:** Python, Bash Scripting, C, SQL

WORK EXPERIENCE & INTERNSHIPS

Information Security Intern | *CyberDefend Solutions* May 2024 - Aug 2024

- Performed vulnerability scans and web penetration tests across 12 client assets, reporting 18 critical CVEs.
- Automated security log analysis using custom Python scripts, reducing incident triage time by 50%.

FEATURED TECHNICAL PROJECTS

Automated Network Intrusion Detection System *(Python, Scapy, Snort, Wireshark, Linux)*

- Developed real-time packet inspection engine detecting ARP spoofing and port scanning with instant email alerts.
- Benchmarked packet capture performance handling 10,000+ packets/sec with zero dropped frames.

Web Application Security Scanner Suite *(Python, Flask, Docker)*

- Built automated scanner auditing SQL injection, XSS, and broken access controls with detailed mitigation guides.

EDUCATION & ACADEMIC BACKGROUND

Bachelor of Technology in Computer Science & Engineering • Government College of Technology 2021 - 2025

CGPA: 9.15 / 10.0 | Relevant Coursework: Information Security, Computer Networks, Cryptography & Network Security

CERTIFICATIONS & HONORS

- CompTIA Security+ Certified
- Certified Ethical Hacker (CEH v12)
- TryHackMe: Ranked in Top 1% globally
