### PROFESSIONAL SUMMARY

Data Scientist with strong statistical foundation and extensive experience in Natural Language Processing, Hugging Face transformers, predictive modeling, and automated data pipelines.

### CORE TECHNICAL SKILLS

- **Languages:** Python, R, SQL, Julia
- **Data Science:** Pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly
- **ML & NLP:** TensorFlow, Keras, Hugging Face, NLTK, spaCy, Scikit-Learn
- **Tools & Databases:** Jupyter, Streamlit, Tableau, PostgreSQL, BigQuery, Docker

### WORK EXPERIENCE & INTERNSHIPS

**Data Science Intern** | *Synthetix Analytics* May 2024 - Jul 2024

- Analyzed 1.2M customer reviews using BERT topic modeling, uncovering 14 product defect patterns.
- Built automated executive reporting pipelines in Python, saving 15 engineering hours weekly.

### FEATURED TECHNICAL PROJECTS

**LegalDoc NLP Summarizer & Entity Extractor** *(Python, Transformers, PyTorch, Streamlit)*

- Fine-tuned BART model for automated legal clause extraction and plain-English summarization.
- Deployed interactive web dashboard enabling lawyers to process 50-page agreements in under 10 seconds.

**Customer Churn Prediction Engine** *(Python, Pandas, XGBoost, SHAP)*

- Trained predictive classifier reaching 91.5% ROC-AUC score with SHAP feature interpretability.

### EDUCATION & ACADEMIC BACKGROUND

**Bachelor of Technology in Data Science & AI** • Indian Institute of Information Technology 2022 - 2026

CGPA: 9.25 / 10.0 | Relevant Coursework: Statistical Inference, Natural Language Processing, Big Data Analytics, Neural Networks

### CERTIFICATIONS & HONORS

- Google Data Analytics Professional Certificate
- Hugging Face NLP Specialist Certificate
